

INJURED WORKER HANDOUTS

As soon as you know one of your employees may have been injured at work, please provide the following documents to the injured worker.

Injured Worker's First Fill Prescription Form:

This document contains a first fill card that an injured worker can use for a one-time fill of prescription medicines for their work injury. **It is important that you give the worker this card right away when they report an injury.** The temporary card is only valid if used within 5 days of the reported date of injury. Once the injury is reported to us, our claims staff will provide further instructions to the worker on how to get subsequent prescription fills and refills.

Form 65 - Occupational Disease Waiver

Employees may want to stay in their current job at their own risk of aggravating their occupational disease. South Carolina law gives employees the option to waive their rights to additional benefits if their disease gets worse in their current job or a new job. Form 65 is only an option in occupational disease claims. The form should be filed with a physician's statement to the Judicial Department at the WCC at least ten days after signing Form 65.

Consent and Authorization for Release of Information and Request for Medical History Forms:

These forms help us to obtain the information and records needed to handle a claim and to make sure that the injured worker receives the best possible medical care. Have the injured worker sign the forms and send them to Omaha National.
