Employee Information

The Missouri Division of Workers' Compensation (DWC) administers programs for workers who have been injured on the job or exposed to an occupational disease arising out of and in the course of employment. The Division's Administrative Law Judges have the authority to approve settlements or issue awards after a hearing relating to an injured employee's entitlement to benefits.

Steps to Take When Injured on the Job

1. Notify your employer immediately (written notice must be provided within 30 days of the accident/or 30 days after the diagnosis of any occupational disease or repetitive trauma) by contacting

_____,
employer representative

_____,
phone number

**Failure to do so may jeopardize your ability to receive benefits*

2. Ask your employer to provide medical treatment (your employer/insurer is responsible for providing medical treatment and paying the medical fees and charges unless you choose to treat with another doctor at your own expense without your employer/insurer's approval).
3. Get more information about the benefits available under the Workers' Compensation Program or about the steps you may take to get the benefits you need. Visit www.labor.mo.gov/DWC or call 800-775-COMP.

Benefits for Injured Employees

Medical Care:

The employer or insurer is required to provide medical treatment and care that is reasonably required to cure and relieve the effects of the injury. This includes all costs for authorized medical treatment, prescriptions, and medical devices. There is no deductible, and all costs are paid by the employer or its workers' compensation insurance company. If you receive a bill, **contact your employer or the insurance company immediately**. The employer/insurer has the right to choose the healthcare provider or treating physician. You may select a different healthcare provider or treating physician, but if you do so, it may be at your own expense.

Payment for Lost Wages:

- If a doctor says you are unable to work due to your injuries or recovery from a surgery, you may be entitled to **temporary total disability** (TTD) benefits. If a doctor says that you can perform light or modified duty work and your employer offers you such work, you may not be eligible for TTD benefits. TTD benefits should be continued until the doctor says you can return to work, or when your treatment is concluded because your condition has reached "maximum medical improvement," whichever occurs first.
- If you return to light or modified duty at less than full pay, you may be entitled to **temporary partial disability** benefits.

Permanent Disability Benefits:

If the injury or illness results in a permanent disability, you may be entitled to receive either permanent partial or permanent total disability benefits.

Survivor Benefits:

If a work-related injury causes an employee's death, the surviving dependents may receive weekly death benefits paid at 66 2/3% of the deceased employee's average weekly wage along with funeral expenses up to \$5,000 from the employer/insurer. For additional information relating to survivor's benefits, including college scholarship opportunities for surviving children, please visit www.labor.mo.gov/DWC.

Additional Benefits for Occupational Diseases Due to Toxic Exposure - Permanent Total Disability and/or Death:

For information relating to additional benefits available, please refer to the Division's website at www.labor.mo.gov/DWC/Injured_Workers/benefits_available.

Roles and Responsibilities for Employers and Employees

EMPLOYER INFORMATION

With some exceptions, all employers with five or more employees, and construction industry employers with one or more employees, are required to insure their workers' compensation liability, either by purchasing a policy or obtaining self-insurance authority. Workers' compensation insurance provides benefits to workers injured on the job. Employers also are required to post this notice in the workplace for employees to view. This poster is required by section 287.127, RSMo, and is available to employers and insurers free of charge by contacting the Division at 800-775-Comp.

Steps to Take When an Injury Occurs

1. Be sure first aid is administered and the employee is taken to a physician or hospital for further medical care, if necessary.
2. Report the injury to the insurance company or Third Party Administrator (TPA) within five days of the date of injury or within five days of the date on which the injury was reported to the employer by the employee, whichever is later. The insurer, TPA, or Division approved self-insurer is responsible for filing a **First Report of Injury** with the Division of Workers' Compensation **within 30 days** of knowledge of the injury.
3. Pay medical bills related to the work injury for treatment reasonably required to cure and relieve the employee of the effects of the injury. This includes all costs for authorized medical treatment, prescriptions, and medical devices. The employer has the right to choose the healthcare provider or treating physician. (The employee may select a different healthcare provider or treating physician, but if the employee does so, it may be at his/her own expense.)
4. For more liability and insurance information relating to the Workers' Compensation Program, visit www.labor.mo.gov/DWC or call 800-775-COMP.

Workers' Safety

Developing and implementing a comprehensive safety and health program can reduce occupational injuries and help lower workers' compensation costs. Insurance carriers in the state of Missouri must provide safety assistance at the request of the insured employer. The Missouri Department of Labor evaluates these services and provides additional assistance through its Missouri Workers' Safety Program.

Visit www.labor.mo.gov/MWSP or call 573-751-4231 for more information about these programs or for a registry of independent consultants who are certified in the state of Missouri to provide safety assistance.

A subsequent violation is a class D felony.

A subsequent violation is a class D felony.

Special Notes

1) Wage Instructions

- A) Missouri Notes: Report the wage information as the average weekly wage (AWW) of the employee. These rules apply for calculating the average weekly wage.
- 1) If the employee's wage is fixed by the year, the AWW is the yearly wage divided by 52;
 - 2) If the employee's wage is fixed by the month, the AWW is the monthly wage multiplied by 12 and divided by 52;
 - 3) If the employee's wage is fixed by the week, that amount is the AWW;
 - 4) If the employee's wages are fixed by the day, hour or output, the numerator is the actual gross wages earned by the employee in the last thirteen calendar weeks immediately preceding the week in which the injury occurred; and the denominator is 13 to calculate the AWW.
 - i) The formula is: Actual gross wages earned in prior 13 weeks/13=AWW. *For example, the employee's hourly wage is \$9.00/hour. The overtime rate is \$13.50/hour. The employee works 40 hours per week at \$9.00 an hour plus occasional overtime. Employee worked overtime of 44 hours in the 13-week period immediately preceding the week of the injury. The employer has employed the employee for 2 years.*
The gross wages are \$9.00 X 40 hours X 13 weeks = \$4,680. You also need to include the overtime 44 hours. Therefore, \$13.50 X 44 hours = \$594. The total wages are \$4,680 plus \$594 = \$5,274. The AWW is \$5,274/13=\$405.69.
 - ii) If the employee misses nonconsecutive workdays during the 13-week period in multiples of 5 those days shall be subtracted from the denominator. *For example: if the employee misses 5 days, one week is subtracted from 13 and the denominator becomes 12; if the employee misses 10 days, two weeks are subtracted from 13 and the denominator becomes 11; and so on.*
 - iii) Partial weeks of time missed by the employee do not count to change the denominator. *For example: if the employee misses 4 days, the denominator is 13; if the employee misses 6 days, one week is subtracted from 13 and the denominator becomes 12; and so on.*
 - iv) If the employee works less than 13 weeks but more than 2 weeks, the AWW is the same formula with the numerator as the gross wages calculated for the number of weeks of employment and the denominator is the number of weeks of employment. *For example, the employee worked for the employer 8 weeks prior to the week of the injury. The employee was paid \$9.00 per hour and worked 40 hours per week. The employee worked 13 hours of overtime. The overtime rate is \$13.50. The gross wages are \$9.00 X 40 hours X 8 weeks plus \$13.50 X 13 hours = \$3,055.50. The AWW is \$3,055.50/8=\$381.94.*
 - 5) If the employee works less than two weeks the AWW shall be equivalent to the AWW for the same or similar employment. However, if the employer has agreed to a certain hourly wage, then the hourly wage agreed upon multiplied by the number of weekly hours scheduled shall be the employee's AWW.
- B) **When the Date Returned to Work is more than three days from the Date Disability Began, the workers' compensation case will be considered an indemnity case. You will receive a request for the cost of medical treatment, the date returned to work, and the total amount of temporary total disability benefits paid to the employee.**
- C) When Initial Treatment Code is reported as equal to 00, 01 or 02, the case will be considered as a medical only case. If the time period between the Date Disability Began and the Date Returned to Work is three days or less, the case will be classified as a medical only case. You will receive a request for the cost of medical treatment and the date returned to work, if not supplied. After all required information has been filed and there is no further activity on a case for six months, the case may be administratively closed. When the Initial Treatment Code is reported as equal to 03, 04 or 05, the case will be considered as an indemnity case. You will receive a request for the cost of medical treatment, the date returned to work, and the total amount of temporary total disability benefits paid to the employee.

2) Initial Treatment Code, Date Disability Began and Date Returned to Work:

- A) When Initial Treatment Code is reported as 00, 01 or 02, the case will be considered a medical only case. If the time period between the Date Disability Began and the Date Returned to Work is three days or less, the case will be classified as a medical only case. You will receive a request for the cost of medical treatment and the date returned to work, if not supplied. After all required information has been filed and there is no further activity on a case for six months, the case may be administratively closed.
- B) When the Initial Treatment Code is reported as 03, 04 or 05, the workers' compensation case will be considered an indemnity case. You will receive a request for the cost of medical treatment, the date returned to work, and the total amount of temporary total disability benefits paid to the employee.
 - 1) When the Date Returned to Work is more than three days from the Date Disability Began, the workers' compensation case will be considered an indemnity case. The three-day waiting period is calculated from the first date of lost time and the lost time does not need to be consecutive days. You will receive a request for the cost of medical treatment, the date returned to work, and the total amount of temporary total disability benefits paid to the employee.
- C) The following are examples of First Aid treatment:
 - a) Use of non-prescription medication at non-prescription strength.
 - b) Cleaning, flushing or soaking wounds on the surface of the skin.
 - c) Using wound coverings such as bandages, Band-Aids, gauze pads, etc. or using butterfly bandages or Steri-Strips. (Other wound closing devices such as sutures, staples, glues, etc. are considered medical treatment.)
 - d) Use of any non-rigid means of support such as an elastic bandage, wrap, or non-rigid belt. (The use of devices with rigid stays or other systems designed to immobilize body parts is considered medical treatment.)
 - e) Use of temporary immobilization devices (e.g., splints, slings, neck collars, etc.) while transporting an accident victim.
 - f) Removing splinters or foreign material from areas other than the eye by irrigation, tweezers, cotton swabs, or other simple means.
 - g) Use of finger guards.
 - h) Drinking of fluids for relief of heat stress.

3) Mesothelioma Liability: Several changes to the Workers' Compensation Law went into effect January 1, 2014. Pursuant to §287.200.4, RSMo, employers may elect to accept mesothelioma liability in one of the following ways:

- a. Insuring their liability by purchasing a workers' compensation policy;
- b. Meeting the requirements of the Division of Workers' Compensation to qualify as a self-insurer;
- c. Joining a Group Insurance Pool that complies with §287.223. (An employer may become a member of the Missouri Mesothelioma Risk Management Fund);
- d. Rejecting *mesothelioma* liability under the Missouri Workers' Compensation Law.

Please note that if an employer has rejected *mesothelioma* liability coverage under the Workers' Compensation Law, the exclusive remedy provision of the Workers' Compensation Law, §287.120, RSMo, does not apply.

- 4) **Occupational diseases:** Occupational diseases due to toxic exposure have been defined effective January 1, 2014. The "occupational diseases due to toxic exposure" includes the following: asbestosis, berylliosis, coal worker's pneumoconiosis, bronchiolitis obliterans, silicosis, silicotuberculosis, manganism, acute myelogenous leukemia and myelodysplastic syndrome. The reporting requirements relating to other occupational diseases such as carpal tunnel syndrome, etc. remains the same.

Reduce Your Workers Compensation Costs

Injury Prevention and Safety Training

According to the Occupational Safety and Health Administration (OSHA), businesses spend \$170 billion a year on occupational injuries and illnesses. Companies that establish safety programs to prevent injuries can reduce those costs by 20 to 40 percent. Safe workplaces also improve employee morale and can lead to increased productivity and improved service. Omaha National has resources to help you develop a program focused on the hazards specific to your business.

Report Injuries Immediately

The single most important thing you can do to reduce your claim costs is to report injuries to us immediately. The best way to do that is to call us anytime an injury occurs, 24 hours a day, seven days a week. The sooner we learn of an injury the better we can investigate the claim and arrange for appropriate medical care. It also helps prevent financial penalties from state regulatory agencies.

Ways to report an injury:

- **Phone: 844-761-8400**
- Fax: 844-761-8402
- Online: omahanational.com
- Email: claims@omahanational.com
- Mail: P.O. Box 451139, Omaha, NE 68145

High-Quality Medical Care

Ensuring that injured workers receive quality medical treatment is important. The right doctor can have a big impact on the successful recovery of an injured employee and on the cost of a claim. In certain states, Omaha National has established custom medical networks and panels including the right specialists to treat each injury in a safe, cost-effective manner, with a focus on early return-to-work.

Establish a Return-To-Work Program

Another way to reduce claim costs is to implement a return-to-work program that helps your injured worker get back to work quickly and safely while recovering from the injury. The program does not need to be complicated: the most important thing is to work with our claims adjuster to coordinate a successful return to work. The program can also include accommodations such as altered schedules, transitional work duties, or reassignment to an alternate position. Omaha National can provide helpful suggestions and advice to administer a return-to-work program.

printed from the web site. It is unlawful for a contractor to provide fraudulent information pursuant to section 287.061, RSMo.

Employees covered under the law:

The definition of "employee" includes both full and part-time employees, and includes every person in the service of an employer under any contract of hire, express or implied, oral or written, or under any appointment or election, including executive officers of a corporation. The definition of "employee" does not include the owner and operator of a motor vehicle which is leased or contracted with a driver to a for-hire motor carrier operating in a commercial zone or operating under a certificate issued by the Missouri Department of Transportation or by the U.S. Department of Transportation, or any of its sub agencies.

Coverage for family members: The Law does provide that certain close family members of employers may be withdrawn from coverage, although they remain "countable" employees, meaning they still count toward the five or more or one or more criteria in the Law. However, this is only available if the business is a sole proprietorship or a partnership. Corporations or LLC's do not have family members. (§§287.030.1(3) and 287.035.6, RSMo).

Coverage for the self-employed: Sole proprietors and partners are themselves not covered unless they individually elect to purchase workers' compensation insurance. If the only people working in a

business are either the sole proprietors or the partners, then workers' compensation insurance is not required by the Law, although it may be purchased voluntarily as indicated in §287.035, RSMo.

Report fraud and non-compliance: If you suspect fraud or non-compliance with the Law, you may call the DWC's Fraud and Non-Compliance Unit at 800-592-6003. The Unit will investigate and may refer the results of its investigation to the Attorney General's Office for possible criminal prosecution.

Please Note: *disputes between a workers' compensation insurance policy holder and an insurance company are under the jurisdiction of the Missouri Department of Insurance, Financial Institutions and Professional Registration's Property and Casualty Section.*

Workers' Compensation Requirements

*For the Missouri
Construction Industry*

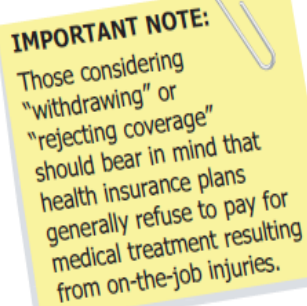

A guide for employers in high-hazard industries to better understand the laws protecting the rights of injured workers.

The Missouri Department of Labor's Division of Workers' Compensation (DWC) is responsible for administering and enforcing the Missouri Workers' Compensation Law which protects employees in the event of on-the-job injuries.

Employer Roles and Responsibilities

Employers liable under the Law: In the state of Missouri, employers with five or more employees are required to carry workers' compensation insurance. Employers in the construction industry with one or more employees who erect, demolish, alter or repair improvements must carry workers' compensation insurance. Employers cover their liability for on-the-job injuries sustained by their employees usually through the purchase of a workers' compensation insurance policy. Some employers join with others to form "group self-insurance trusts" and some employers qualify to be "individually self-insured." It is a criminal offense to operate a business without having the required insurance, and it may also expose an employer to civil liability. If a business is organized as a corporation or a limited liability company (LLC), the corporation or LLC is regarded as the "employer" who is subject to the requirements of the Missouri Workers' Compensation Law. All the persons who work for the corporation

IMPORTANT NOTE:
Those considering "withdrawing" or "rejecting coverage" should bear in mind that health insurance plans generally refuse to pay for medical treatment resulting from on-the-job injuries.

or LLC are considered its employees even if such persons are the owners or executive officers of the corporation or members of the LLC.

Corporation Exemption Requirements: A corporation may elect to withdraw from the workers' compensation requirements if there are no more than two owners of the corporation who are also the only employees of the corporation. The corporation should contact the Division's Customer Service Unit (*see contact information on the back of this pamphlet*) to obtain further information on the paperwork that needs to be submitted to file the notice of election to be withdrawn.

"S" Corporations: Effective January 1, 2018, a shareholder in an "S" Corporation (as defined by Section 143.471.1, RSMo) who owns at least 40% of the outstanding stock in that corporation may individually reject workers' compensation insurance coverage for himself or herself by giving written notice of such rejection to the corporation and its workers' compensation insurer. There has been no change in the law generally requiring workers' compensation coverage to be in force on all construction industry employers (those who erect, demolish, alter or repair improvements) if they have even one employee. So, if the "S" corporation is operating in the construction industry, there still must be a workers' compensation insurance policy in force on the corporation itself (and on any of its employees who are not eligible to reject individual coverage on themselves) unless the corporation has

no more than two owners who are also the corporation's only employees and it has notified the Division of Workers' Compensation that it has withdrawn from the provisions of the Missouri Workers' Compensation Law- as explained earlier in this pamphlet.

Limited Liability Company Coverage Requirements: An LLC, as defined in section 347.015, RSMo, needs to obtain coverage for the employees of the LLC so long as the LLC is an employer who is subject to the requirements of the workers' compensation law. The LLC is required to carry coverage even if all employees are members. While members of the LLC are provided coverage, such members may individually elect to reject such coverage by providing a written notice of such rejection on a form developed by the Department of Insurance, Financial Institutions and Professional Registration to the LLC and its insurer. The form may be found at www.insurance.mo.gov/industry/forms/LLC-WC.pdf. A member who elects to reject such coverage shall not thereafter be entitled to workers' compensation benefits under the policy, even if serving or working in the capacity of an employee of the LLC. The member may rescind his/her rejection of coverage.

General and Subcontractor Coverage Relationship: A general contractor can require subcontractors to carry workers' compensation insurance. Generally, the Law says that the general contractor is liable for any injuries sustained by uninsured subcontractors or their uninsured employees (§287.040, RSMo). Because of this, the general contractor's insurer

will charge an additional premium if the subcontractor cannot provide proof of coverage, even if the subcontractor has no employees. If the general contractor says he/she will not hire the subcontractor unless he/she has a policy and insures him/herself, the subcontractor would need to buy a policy covering his/her business or him/herself or work for a general contractor who does not make this a requirement.

Providing proof of coverage when applying for a city or county business license: This requirement was placed in Law by the Legislature in 1993 for any business that is a "contractor in the construction industry." Any city or county that issues an occupational or business

Verifying Proof of Coverage

Have the following information on hand: name of employer, employer's federal ID number, and the location of the employer. If the employer is a franchise, please provide the name of the company that owns and operates the business.

license for a contractor in the construction industry is required to obtain proof of insurance coverage or have the completed affidavit of exemption submitted by the contractor.
